Projekto pagrindiniai tikslai

Perėjimas prie tvarios energetikos praktikos apima energijos vartojimo efektyvumo skatinimą, atsinaujinančiųjų energijos šaltinių diegimą ir šilumos siurblių naudojimo skatinimą.

Bus siekiama sukurti integruotą skaitmeninę priemonę skatinančią efektyvaus energijos vartojimo sprendimų diegimą, naudingą ir specialistams, ir vartotojams. Įgyvendinant šį projektą taip pat bus apmokyta ne mažiau kaip 385 statybos sektoriaus specialistai ir 115 instruktoriai, skatinant ekologiškų technologijų diegimą ir energijos vartojimo efektyvumo skatinimą įrengiant šilumos siurblius.
